

ApplicationException

ApplicationException

DotZLib.ZLibException

```
graph BT; DotZLibZLibException[DotZLib.ZLibException] --> ApplicationException1[ApplicationException]; DotZLibZLibException --> ApplicationException2[ApplicationException];
```

The diagram illustrates a class hierarchy. At the bottom is a box labeled 'DotZLib.ZLibException'. Two arrows originate from the top of this box and point upwards to two separate boxes, both labeled 'ApplicationException', positioned to the left and right of the top box. This indicates that 'DotZLib.ZLibException' inherits from 'ApplicationException'.
