exception

mpfr::conversion_overflow

```
graph BT; A[mpfr::conversion_overflow] --> B[exception]; A --> C[exception];
```

The diagram illustrates a relationship where a base class, `mpfr::conversion_overflow`, is inherited by two separate classes, both labeled `exception`. A central box at the bottom contains the text `mpfr::conversion_overflow`. Two arrows originate from the top of this box and point upwards to the bottom of two separate boxes positioned above it. Each of these upper boxes contains the text `exception`.
